Director/Officer (list the position & the years served as each)

none

Other Involvement & Goals

Briefly describe your involvement with other trade associations, professional organizations, civic and community activities and other accomplishments:

I am a Sterling R, RPAC investor and I intentionally serve our local and state associations, because I am passionate about our industry, our association, our Code of Ethics and the Members. Serving on the Greater Tampa REALTORS Board of Directors has been the catalyst to narrow my focus of service and determine the most effective use of my valuable hours. I am capable and enthusiastic to serve the members at an even higher commitment level now. I know that the time and effort that I devote to the association, truly makes a difference and a valuable contribution to our members and our industry.

What goals do you hope to accomplish, if you are elected to serve?

The association has been an invaluable support and source for me, and my company, and I desire to give back as much as possible, in appreciation for the contribution it has made to me over the years. It is more important now, than it has been in our history, for the association to step forward with compelling and innovative leadership and support for the members. As Vice President, I will be committed to assuring competence, fairness, and integrity to the members. I will institute a strong effort toward embracing and integrating the opportunities brought forth by changes in our industry. It is imperative that the association bring the most current and valid industry information along with relevant tools to the membership. I am eager to participate in the association's continued effort towards the evolution and success of the members and to ensure that, as a board, we are truly working in the member's best interests, by listening to the members and incorporating their ideas and needs into all decisions. I would like to incorporate communication with Brokers at a higher level. I believe that agents become involved and better real estate service providers, when their Brokers understand and value the association's contribution to our local industry, community, and every agent's personal business. I believe that our industry is changing and evolving at a much faster rate than it ever has in the past, and that we are at a pivotal point in time. At this time, our association and members can be part of influencing the change. Otherwise, a lack of directed intention, may allow the change to reduce our ability to serve our customers, clients and the public. As Realtors, we are called to be zealous to maintain and improve the standards of the real estate industry, and to come together to embody a common responsibility for its integrity and honor. As Vice President, I will be determined to bring members together to collectively navigate and successfully shape our skills and practices to thrive with every changing circumstance presented.
